FEATURES

1、Fisher® Space Pen Cartridge

NexTool Tactical Pen is a functional writing instrument, which uses the Fisher® Space Pen ball point cartridge. It can be written at any angle, even in weightlessness conditions, at -30°F (-35°C) to $+250^{\circ}\text{F}$ (121°C); **3.5** times longer lasting than a typical ball point refill, which also has **100** years of shell-life if kept in 30°C .

2、Tactical Defense

The body is made of space grade aluminum with precision – machining and Mil – Spec Type III hard anodizing process, with its tip topped with Tungsten steel, which hardness can reach at HRA 89 to 95, which quality makes sure it can be used for glass breaking in emergency situations and durable usage.

3、Emergency Escape

Designed just like a pen, which also allows it to be carried on an aircraft or a train. The self - defense strike tip design can cause temporary harm to the threat.

INK CARTRIDGE REPLACEMENT

The ink cartridge can be replaced with a Fisher SPR4 cartridge, or most Parker-style ink cartridges that are 3.86 inches long, which are widely available for purchase in-store or online. Furthermore, the Dino Bone Tactical Pen comes with Fisher origin plastic adapter for cartridge extended and compatible with regular cartridge length in 98mm.

To replace the cartridge, unscrew the tip and keep the spring, remove the used cartridge and dispose of it properly. Place the spring over the tip of the new ink cartridge, place it into the body tube and screw the tip back onto the pen.
